

*NEBRASKA CENTER FOR MATERIALS AND
NANOSCIENCE
2011 SEMINAR SERIES PRESENTS*

Co-sponsored by the Department of Chemistry

Dr. Ho-Kwang Mao
Carnegie Institute of Washington

High Pressure – A New Dimension in Physical Sciences

Ho-Kwang Mao's research centers on ultra-high pressure physics, chemistry, material sciences, geophysics, geochemistry and planetary sciences using diamond-anvil cell techniques that he has pioneered. He received a Ph.D and MSc from University of Rochester in 1968 and 1966, and a BSc in geology from National University in Taiwan, China in 1963. Professor Ho-Kwang Mao is a member of the National Academy of Sciences.

His web site is at: <http://people.gi.ciw.edu/hmao/Welcome.html>

Friday, April 22, 2011
3:00 pm - Reception, Room 548 Hamilton Hall
3:30 pm - Lecture, Room 112 Hamilton Hall

Host:
Dr. Xiao Cheng Zeng
Department of
Chemistry
