

# ***EQUATE***

## ***SEMINAR SERIES***

The EQUATE Seminar Series aims to bring together all SIs, postdocs, graduate students, and undergraduates involved to hear short, informal presentations from postdocs, graduate and undergraduate students. A short discussion session after each presentation will be facilitated with the goals of informing groups of what is going on in other FRG's, as well as stimulating inter- and cross-FRG collaboration. Those at UNL are encouraged to participate in person.
